

Fostering Community Growth

At Kootenay Savings, positively impacting the well-being of our local communities is hugely important to us. One of the major ways we make a meaningful difference is through our work with the Kootenay Savings Community Foundation. Recently, we approved \$29,600 in new grants to help various community partners achieve their goals.

Here's a summary of the incredible initiatives we have the honour of being a part of this granting cycle. To learn a more about each group, hover over their name and click.
